

NEW/REPLACEMENT TEST
NOTIFICATION DATE: December 12, 2019
EFFECTIVE DATE: December 30, 2019

TEST REMOVAL, H PYLORI IGG

Epic Test Code LAB158 (*Helicobacter Pylori* IgG)

EXPLANATION: Effective December 30, 2019, the Ruby laboratory will no longer perform testing for *H. pylori* IgG due to the limited clinical utility of this test.

For patients with suspected active *H. pylori* infection, please order the fecal/stool antigen test, LAB304489. Additional information is available in the test catalog.
